COMPANY OVERVIEW

01

ABOUT US

ARABIAN EUROPEAN Lighting systems Co. LLC as one of the prominent suppliers of lighting fixtures to provide its customers innovative lighting solutions with a very high level of services in the UAE since 2003.

Gathering a well experienced team Of lighting Engineers can provide lighting consultations, Luminous Calculations Lighting Distribution. CAD and Shop Drawing for all types Of projects.

Company's performance is the result of providing technically professional lighting solutions with well-educated Lighting designers who use the latest lighting software in design Inputs. We can provide a complete 3D simulation to achieve the best results & accuracy

COMPANY OVERVIEW

MISSION

Our mission embodies everything we stand for, way we do our business, work culture, our passion for quality & innovative technologies

COMPANY OVERVIEW

VISION

To be recognize as one of the leading suppliers & Lighting solution Provider Company in the UAE and provide excellent services and state of art solutions to our valued clients and exceeds our client's expectations.

02

OUR VALUE

- Leading company in Lighting Solution.
 - Over two decades in operation.
 - We provide a comprehensive selection of light fixtures, ensuring that our clients can find the perfect lighting solutions for their specific needs.
- We merge between financial value and quality of our products.

03

COMPANY BENEFITS

By leveraging the services of a lighting consultant company, clients can benefit from professional guidance, innovative designs, cost savings, enhanced aesthetics, and compliance with industry standards.

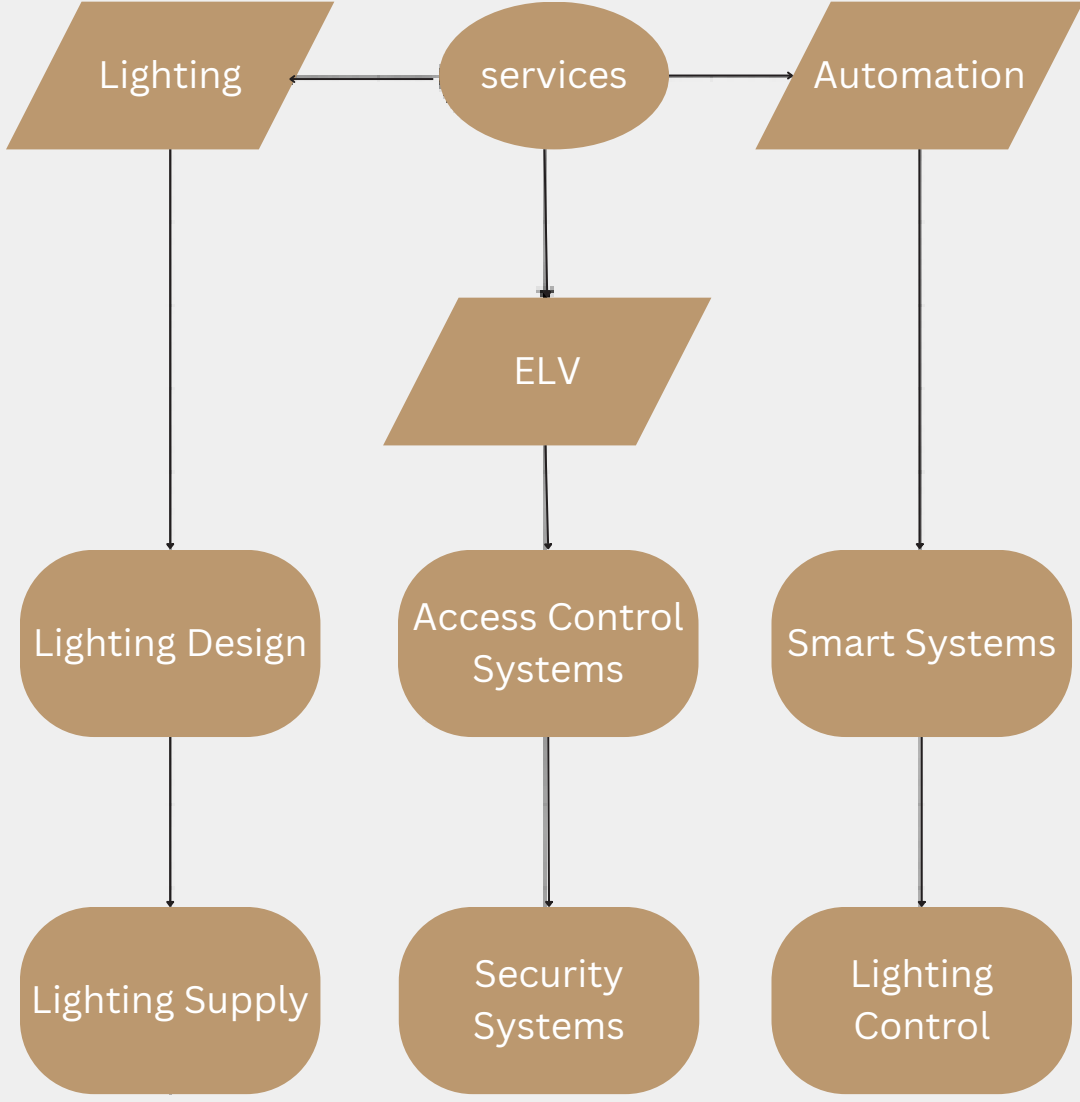

A lighting consultant company understand the nuances of lighting techniques, technologies, and industry best practices. Clients can benefit from cost savings in the long run. These consultants are skilled in designing energy-efficient lighting systems that can significantly reduce energy consumption and, consequently, lower utility bills.

Every space has unique requirements, and a lighting consultant company can provide customized lighting solutions tailored to specific needs. They consider factors like the purpose of the space, architectural features, color rendering, light levels, and the desired mood. With their expertise, they can create lighting designs that align with the client's vision and requirements.

OUR SERVICES
